

# PUTTING KIDS FIRST

As we enter our 25th year of changing and saving local kids' lives, we are uniquely positioned to address their unprecedented needs in our region. BGCNV is fulfilling its promise to provide high-quality youth development experiences with evidence-based strategies for all youth that enter our Clubs.

## NEW Beginnings

- **Focus on Our Clubs Future:** Identifying long-term solutions that will build up our communities to be healthier and stronger.
- **Rejuvenate Programs:** Consistent, life-enhancing, and fun year-round programs that foster hope and self-confidence.
- **Enhance Mentoring:** Providing trauma informed staff that give every kid the tools to flourish within our Clubs and community every day.

## TARGETED Services

- **Purposeful Programming:** Collaborating with local agencies to help youth positively cope and work through their everyday challenges.
- **Intentional Staff Training:** Trauma responsive care, resiliency skill building, positive youth development, and programming practices.
- **Provide Safe Spaces:** Where youth can grow, build social and emotional skills and reach their full potential.

## FAMILY Advocacy and Care

- **Strengthen Relationships:** Supporting our families to meet immediate needs and connect them with local resources.
- **Create Stability:** Helping families become self-sufficient so staff can focus on ensuring youth have what they need to succeed.
- **Expand Case Management:** Three case managers to help our families, Butte-Glenn 2-1-1, and HomeTech Charter and Ridgeview Schools.
